- ✓ Kementerian Kewangan Malaysia (Sijil Bumiputera) (MOF)
- ✓ MS ISO 9001:2008
- ✓ Kementerian Kewangan Malaysia (Kontraktor) (MOF)
- ✓ Pusat Khidmat Kontraktor (PKK)
- ✓ Gred Pendaftaran G7 (Bumiputera)
- ✓ CIDB Malaysia, Suruhanjaya Tenaga (ST)
- ✓ Kastam Dan Eksais Diraja Malaysia, Jabatan Keselamatan & Kesihatan Pekerjaan Selangor (DOSH)
- ✓ Lesen Pengilangan (MIDA)

DIVISIONS

The businesses of Anjur Ekar are divided into **six** operating **divisions**:

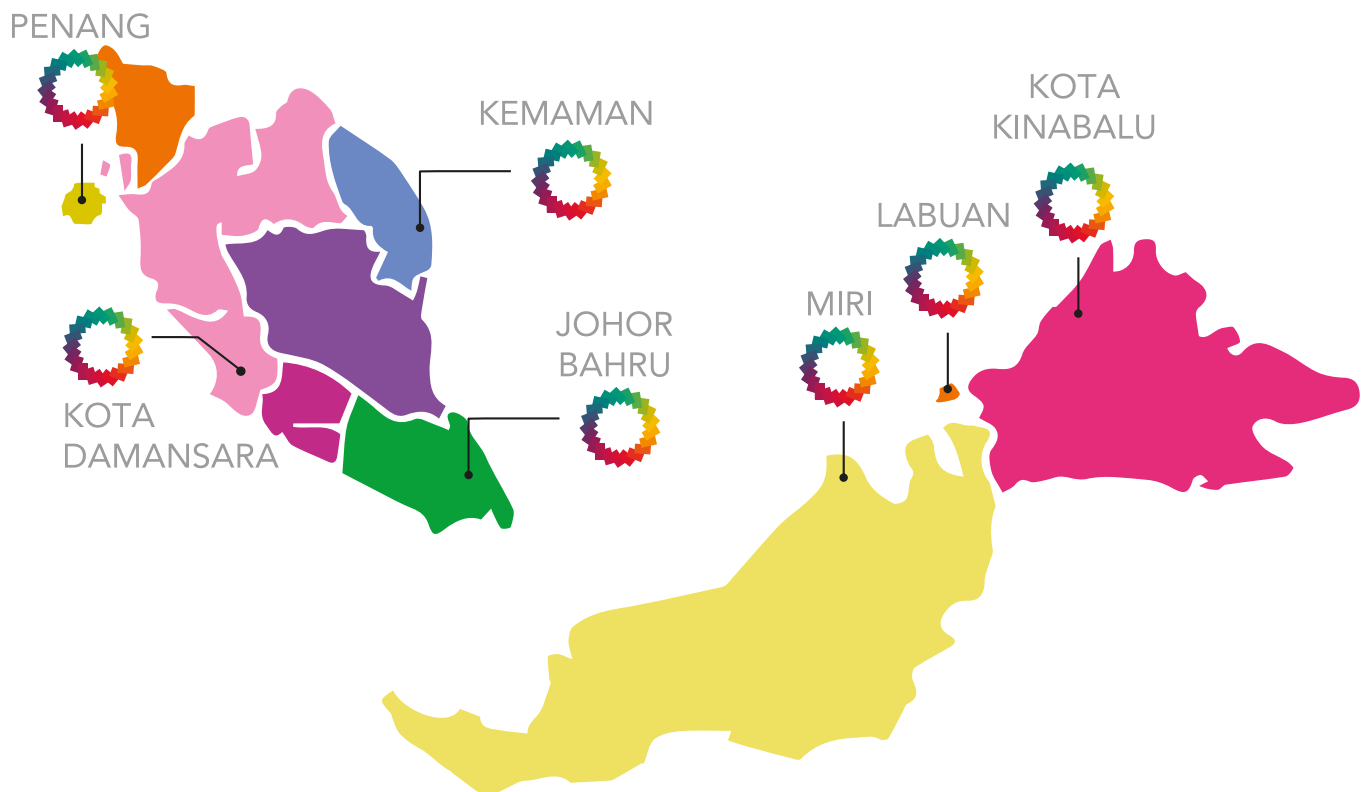

Mission

" Pacing our stride to be an eventual PREFERRED POWER SYSTEM PROVIDER "

Vision

" Delivering quality through our products and unsurpassed SERVICES in every aspects of our business "

THE NATION WIDE BRANCHES

BACKGROUND

The growing demand of oil and gas industry in Malaysia led to the birth of **Anjur Ekar's Power Oil and Gas (P.O.G.)** division.

Started off as supplier for diesel and gas engines powered generator sets, P.O.G division expands their business by specialize in turnkey power solutions and service provider for oil & gas industry domestically and internationally.

BUSINESS FOCUS

- Supply for both SAFE Area and ZONE 2 Hazardous Area Diesel Engine Generator (DEG) and Gas Engine Generator (GEG) Sets
- Diesel Engine Driven Pump
- Air Compressor
- Gas Compressor

TECHNOLOGY PARTNERS & SUPPLIERS

Waukesha

SERVICES OFFERED

- ✓ Primarily involve in power generation supply & rental Diesel & Gas Engine Generator Sets for Onshore & Offshore requirements
- ✓ Compliant to Zone 2 Hazardous Area (ATEX Directive 94/9/EC or equivalent) & Safe Area
- ✓ In-house project management & consultation
- ✓ In-house design engineering for customized power generation packages
- ✓ In-house fabrication & packaging works
- ✓ Testing & Commissioning
- ✓ After sales & Product supports
- ✓ Research & Development in power generation industry

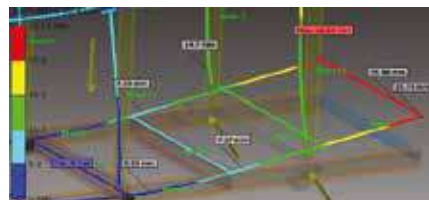

SAFETY SOLUTIONS

As specialist in power solutions and service provider, our customized product solutions are safe and comply with international standards, e.g. NFPA, OSHA, etc. Together with clients, we prioritize safety elements in our products and services offered to meet project requirements, be it for Zone 2 Hazardous Area and Safe Area applications.

FACILITIES & EQUIPMENT

- ✓ Our facilities are strategically located in Malaysia, i.e. Kota Damansara, Kemaman, Miri, Labuan and Kota Kinabalu.
- ✓ The facilities are equipped with testing bays, mechanical and electrical installation area, equipment servicing area and load banks.
- ✓ Our facility is meeting to Quality and HSE standard practice and regulations.

Engineering & Design Works

- Primarily focus to custom-made and unique design solutions to meet major demands in the oil and gas segments while maintaining our commitment to utmost quality and safety regulations.
- We manage our own design with flexibility to improvise in accordance to specific project requirements for our clients.

Fabrications & Packaging

- Our fabrication team encompass experienced and qualified skill workers who specialize in power generation equipment solutions to our clients. With more than 10-year experience, we have successfully developed our capabilities to package and deliver power generator equipment range from 10kW to 2500 kW.
- Our full-fledge fabrication & packaging facilities include with overhead cranes, forklifts, welding and grinding machines, mechanical & electrical installation areas and testing bay, among others.

After Sales & Product Services

- Our dedicated after sales and product services team is properly trained and certified to undertake power generation services, maintenance, and troubleshooting activities both onshore and offshore.
- We offer prompt response to our clients' inquiry and provide our consultation whenever necessary.

Anjur Ekar P.O.G Division has delivered the following projects for oil & gas clientele :

- ✓ Layang – 1 x 40kWe Diesel Generator Set
- ✓ JDA Block B-17 & B17-01– 4 x 22 kWe Diesel Generator Sets (Zone 2 Hazardous Area)
- ✓ TL Offshore – 2 x 320 kWe Diesel Generator Sets
- ✓ Tembungo A – 1 x 400 kWe Gas Generator Set and 1 x 400 kWe Diesel Generator Set
- ✓ Talisman Bunga Orkid - 4 x 30 kWe Zone 2 Diesel Generator Set
- ✓ Tapis D – 1 x 800 kWe Diesel Generator Set
- ✓ Guntong F - 1 x 520 kWe Diesel Generator Set
- ✓ Seligi A – 1 x 36 kWe Diesel Generator Set
- ✓ Bekok C – 1 x 480 kWe Diesel Generator Set
- ✓ Malong – 1 x 400 kWe Diesel Generator Set
- ✓ Duyong – 1 x 32 kWe Diesel Generator Set
- ✓ Sotong – 1 x 16 kWe Diesel Generator Set
- ✓ Dulang – 1 x 16 kWe Diesel Generator Set
- ✓ Tapis C - 1 x 650 kWe Diesel Generator Set
- ✓ Dulang - 1 x 650 kWe Diesel Generator Set

Power Generation Oil & Gas (POG)

As an energy solutions provider, Anjur Ekar offers the design, fabrication and packaging of customised rotating offshore solutions related to engine operations in the oil and gas industry. We also supply both Safe Area and Zone 2 Hazardous diesel and gas engine power generators alongside the supply of diesel engine driven pumps, air and gas compressors, micro turbines and turbines.

AnjurEkar P.O.G

Power Generation Oil & Gas

Introduction

Anjur Ekar Sdn Bhd has been a leader in providing machine-generated back-up power for decades now, emphasising on our aim to be a 'Preferred Power Systems Provider' in Malaysia.

Taking pride in our commitment to quality in all aspects of our business, our real rise to success lies in our perseverance to take the business beyond expectations.

This is evident in the way we progressed from being a humble supplier of generators to customising and creating high quality generators to suit our clients' changing needs.

Right from supply to after-sales services, we are today known as a company that adapts to suit current operational environments that are constantly changing in tandem with the needs of our clients and this has proven effective in the increased support and partnership received from clients across the globe.

Over the years, we have delivered projects with PETRONAS Carigali Sdn Bhd, ExxonMobil, TL Offshore, Schlumberger Talisman, among others. We have won over the trust and confidence of large foreign corporations that led to awards of distributorship and dealership of major brands like Nippon Sharyo (Japan), FG Wilson (U.K.) and Kohler (U.S.A.).

Our Business

Realising increasing operational demands in the industry, the business today focuses on providing total power solutions, including generator sets and rotating equipment such as compressors and engine-driven pumps.

Our expertise lie in custom-made total solutions we call package solutions, which encompass the engineering, design, fabrication and sale of generator sets and rotating equipment that cater to clients' specific requirements that often differ between project execution.

These package solutions are made available due to partnerships we have forged with selected reputable suppliers in the oil and gas industry, allowing us to tailor-make power systems. This gives us the advantage in being able to create power needs and solutions that cater to specific and detailed client requirements, be it offshore or onshore, while not restricting our scope of delivery.

We also assure that in our vision to be a 'Preferred Power System Provider', our priority to keep in accordance to international standards is never compromised, making our solutions globally accepted.

As a testament to our commitment to high quality production and service, our management systems have been certified with ISO 9001:2008, while we are in midst of achieving ISO 14001:2004 and OHSAS 18001:2007.

What we do

The growing demand of the Oil and Gas industry in Malaysia led to the birth of Anjur Ekar's Power Oil and Gas Division.

We started off as a supplier of diesel and gas powered generator sets and grew the business into an assembler and packager of total power solutions for the industry, including rotating equipment requirements both for SAFE and Zone 2 applications.

With this as our core business today, our priority in the market is to cater to offshore and onshore oil and gas requirements, be it in or outside Malaysia.

In our commitment to achieving greater success and recognition, we are looking forward to immediate ventures into the supply of gas and air compressors, turbines and engine-driven pumps for application.
